PROFESSIONAL SUMMARY

Enthusiastic about contributing to projects that enhance user experiences by leveraging strong expertise and a comprehensive background in developing full-stack applications, including IoT solutions and real-time data. Eager to collaborate closely with a team to drive innovation and improve coding standards.

- High concurrency/throughput data ingestion pipelines.
- Real-Time Tracking System reducing operation costs by **8%**.
- Updated old Node JS **microservices** to latest Node LTS, with full test suite intact.
- Built real-time resource monitoring and managment system and Facial Recognition REST API ASP .NET Core (EF Core)

PROJECTS

Importscan — Jan 2025 — Apr 2026, Singapore

A B2B global trade intelligence and supply chain visibility platform that ingests, enriches, and structures billions of multi-jurisdictional customs records and shipping manifests to power competitive intelligence, vendor vetting, and regulatory compliance for enterprise customers.

OurMaids — Apr 2024 — Dec 2025, Delaware, United States

Web app for booking cleaning services in Next.js and mobile app for Android and IOS with backend in Node.js.

eBasel — Nov 2024 — Aug 2025, Kuala Lumpur, Malaysia

Backend Software Engineer with expertise in building high-throughput, regulatory-compliant systems. Proven track record implementing **UN/CEFACT e-Basel data standards** to digitize transboundary waste tracking, automate multi-jurisdictional workflows, and build secure cross-border APIs.

AYI TECHFE — Feb 2023 — Feb 2025, Toronto, Canada

Personal maids and nannies services. Built web and mobile app for a startup.

M2M Smart Machine — Dec 2022 — Apr 2023, Kuala Lumpur, Malaysia

Real-Time IoT reporting for production line and user-level and user-role management.

M2M Sales/Lead Tracking System — Jun 2023 — Sept 2023, Kuala Lumpur, Malaysia

Lead tracking and project management system for company reps.

M2M Smart Fleet — Jan 2024 — Dec 2024, Kuala Lumpur, Malaysia

Web and mobile app for real time Fleet tracking with GPS and job management with user roles.

Warehouse Management System — Sept 2022 — Oct 2022, Kuala Lumpur, Malaysia

Developed an Inventory Management System to improve warehouse operations by streamlining stock tracking, order processing, and rack mapping for better organization and efficiency.

EXPERIENCE

Sr. Full Stack Developer, Vertex AI Pte. Ltd.
Jan 2025 — Apr 2026
Singapore, Singapore

Engineered low-latency search and filtering workflows across a multi-terabyte dataset of global import/export manifests, reducing complex query response times for enterprise users.

Fullstack Developer, M2M Networks
Sept 2022 — Mar 2024
Kuala Lumpur, Malaysia

- Successfully developed full-stack mobile applications for both Android and iOS using React Native, along with a web application in React.js to enable real-time monitoring of IoT devices. Expertly integrated Socket.IO to facilitate seamless real-time data communication and implemented custom hooks to optimize state and event management.
- Worked on Google Maps and GPS data for tracking of Forklifts M2M Smart Fleet.
- Contributed to other projects such as M2M WMS (Warehouse stock tracking and management).

Full Stack Engineer, Freelance
Sept 2023 — Present
Rawalpindi, Pakistan

Providing various software development services as a freelancer. Currently working as a freelancer on Fiverr and Upwork serving multiple clients from the USA, Mexico, and Canada. Few projects include www.ourmaids.com web and mobile apps. www.ayiservices.com web and mobile apps.

EDUCATION

PMSA Arid Agriculture University - BIIT
Feb 2019 — Feb 2023
Rawalpindi, Pakistan

BSCS - 3.92 CGPA

SKILLS

- C# ASP.NET Core
- Angular
- Javascript
- Typescript
- Python
- Next.js
- Vite
- React Redux
- REST API
- System Integration
- HTML 5
- CSS 3
- SASS
- Tailwind CSS
- ES6
- Node.js
- Webpack
- Mantine UI
- Shadcn UI
- D3.js
- Charting
- Data Visualization
- Express.js
- Socket.io
- MySQL
- PostgreSQL
- MSSQL Server
- Database Design
- MongoDB
- Azure
- AWS
- Firebase Firestore
- Jest
- react-testing-library
- Cypress
- Mocha
- Chai
- unit testing
- integration testing
- e2e testing
- Data Structures
- Design Patterns
- Object-Oriented Programming (OOP)
- Git
- GitHub
- Microsoft 365
- SharePoint
- Power Apps

FastAPI

GraphQL

Power Automate

COURSES

- **AWS Certified Developer Associate (DVA-C02)**
